 <p>The screenshot displays the Akasa Air flight search interface. At the top, the status bar shows the time as 11:26 AM, data usage at 52.4KB/s, and battery level at 84%. The page title is 'Flight Search' with a back arrow and a language selector (A/IN). The search options are set to 'ONE WAY'. The origin is 'FROM Mumbai BOM' (Chhatrapati Shivaji International Airport) and the destination is 'TO New Delhi DEL' (Indira Gandhi International Airport). The departure date is '28 Jan Tue, 2025'. There is an option to '+ADD RETURN DATE' with the note 'Save more on round trips!'. The traveller count is '1' and the class is 'Economy/Premium Economy'. Under 'SPECIAL FARES (OPTIONAL)', there are three categories: 'Student' (Extra discounts/baggage), 'Senior Citizen' (Up to ₹ 600 off), and 'Armed Forces' (Up to ₹ 600 off). A large blue 'SEARCH FLIGHTS' button is located below these options. The bottom section features two promotional banners: one for Taj Hotels with the text 'Welcome 2025 with Stays at Taj!' and a 'BOOK NOW' button, and another for Akasa Air flights showing an airplane in flight.</p>	<h2>User Search Page</h2> <ol style="list-style-type: none"> 1)Search Bar-Allows users to type and search for keywords, places ,stares countries , transport names like train names airplane name 2)different trip options like one way ,roundtrip ,multicity 3)from and to option for departure and arrival destination 4)departure date and return date 5)traveller count and class 6) special fare options for student senior and armed personals 7)search button 8) various ads and offers and bottom 9)language button at top right corner
